

## Ultimate Print Sdn Bhd group , Malaysia Invests in 2 Manugraph Presslines , a massive 16 tower order

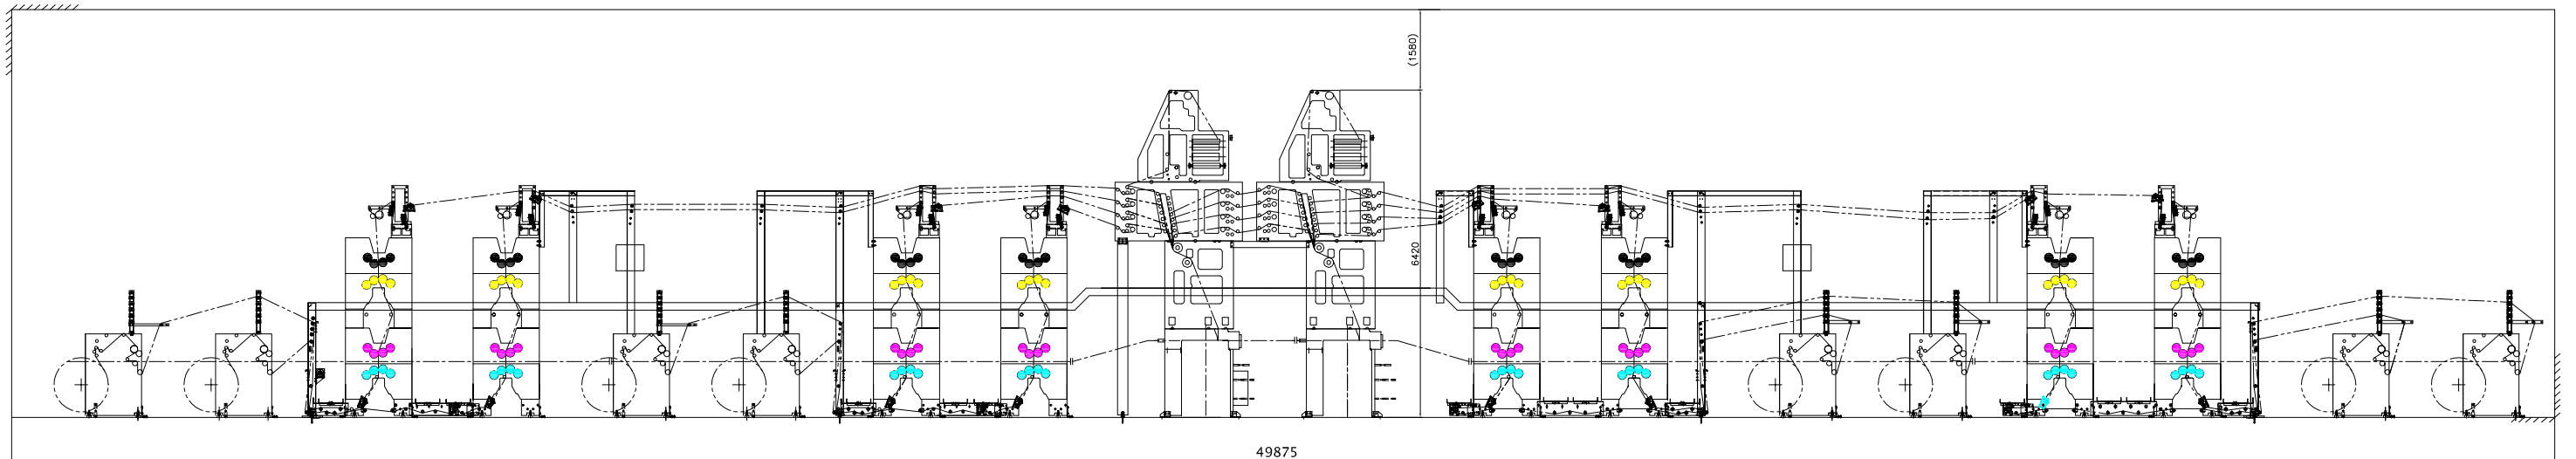

One secret of success for mature Manugraph in the Printing Industry is learning how to leverage traditional strengths with strong international business acumen. No wonder they have established themselves as "Global leader in Single width Technology"

Smart wins are not common to Manugraph and the coveted win is the order from Ultimate Print Sdn Bhd group who have a lot of publications in their listing. The web machine will cater to the printing of "Sinar" a leading daily of Malaysia. Other than the news paper they do have a bouquet of printing assignments ranging from magazines, catalogues, leaflets, textbooks and directories.

Formed in 1988 the company is today the largest magazine printer of Malaysia. The founder of the company Mr. Hishamuddin Bin HJ. Yaacob and the Board of directors have kept the vision of making Ultimate Print, the top commercial printer in the industry, one that offers the best value to customers. A heavy investment in people and technology is to ensure Ultimate Print's position as a market leader in the industry.

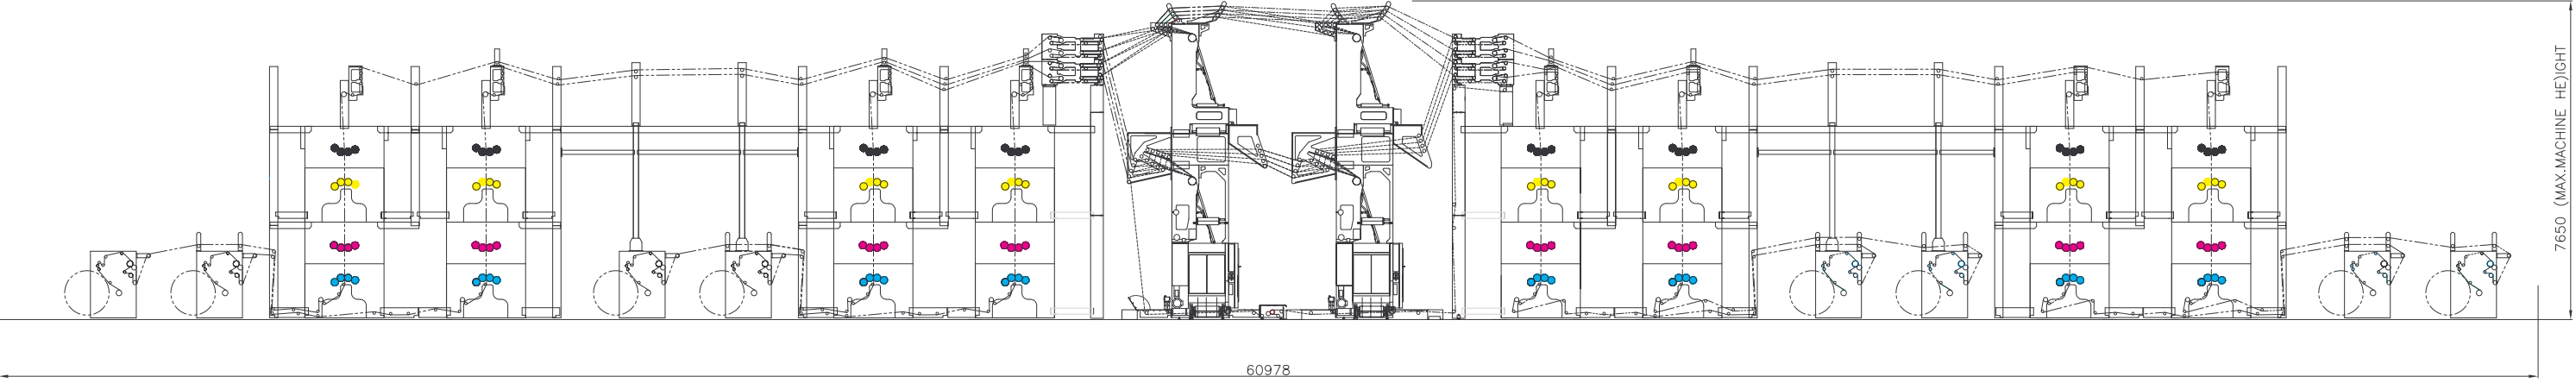

A Manugraph Hiline & Cityline Express will adorn the new expansion plan of the company. With each machine having 8 Towers, 2 folders and 8 autopasters the installation will be massive one in this category. The Hiline is installed at Kuala Lumpur and the Cityline Express would be at Penang.
